

**Living Divani @ FIAC 2013**

24-27 October 2013

**Grand Palais, Paris (F)**

Living Divani, in partnership with its client Etat de Siège, has again been invited in its capacity as Relaxing Partner to decorate the VIP areas of the Rotonde de la Reine in the Grand Palais with its comfortable, elegant furnishings for the 30th FIAC, the International Contemporary Art Fair held in Paris, 24-27 October 2013.

Living Divani consolidates its presence in the art and culture worlds and places a number of the most significant pieces from its collection in this prestigious venue (completely renovated in 2011) that is set to welcome the art world's leading players attending the major autumn event in the French capital.

Refined, comfortable **Twin** sofas are the main feature in the Rotonde de la Reine's central area and are accompanied by a few **Jelly** low tables and the elegant lines of **mini Jelly** chairs.

**NeoWall** sofas' pleasantly geometric lines furnish the twin areas of the VIP zone. In the first area, the visual rigour of white **B2** low tables encounters the light, discreet design of **Cafè** armchairs; in the second, the playful cheekiness of the **Rabbit & the Tortoise Collection** set of low tables blends fluidly into the setting, balanced by the chunky, reassuring shape of **Marquise** armchairs and more **Cafè** armchairs.

Four more relaxing zones are formed around four seating designs, including **Cafè** and **mini Jelly** plus light-framed **Rod armchairs** with soft cushions that seem they fold you in their embrace. The sophisticated metal structure of an **Ile** low table and three **Jelly** low tables are placed in the centre of each zone.

The very diverse materials and finishes create a harmonious, emotion-provoking setting for an exceptional place and event.
